PARENTS AND FRIENDS  
VISIT THE SCHOOLS

## INTERESTING WORK ON EXHIBITION TODAY SHOWS VALUE OF INSTRUCTION

Many parents and friends of the school are today availing themselves of the opportunity offered to visit and appreciate the work that the school has done thus far along pure scholastic lines. Each room has on exhibition a sample of the work the class is doing, and many beautiful results are shown.

Particularly interesting and attractive are the exhibitions from the departments of manual training and domestic science. This work Mr. Cross and Mrs. Smith have arranged artistically in the high school assembly room. The articles of furniture made by the boys and the dainty products of the girls' needles, demonstrate the excellent results obtained in these departments.

The memory of George Washington has furnished the material for the display among the grades. In the lower grades the children are allowed to tear and cut little figures suggesting anecdotes of Washington, while the teacher tells the story. In this manner the child has a real picture to supplement his mental idea of the moral and patriotic lesson to be learned.

A careful survey of each room might well require a volume. Mrs. Curieux's room is made particularly attractive by the weaving and paper folding exhibits. Miss Malley's, Miss Taylor's and Miss Bennett's rooms have an excellent display of penmanship and arithmetic work. The drawings, cartoons and arithmetic work, as prepared by the eighth grade under Miss Filkins, are a remarkable example of the progressiveness of the Tonopah schools.

Miss Wardle's room in the house just below the school is also very fastidiously arranged, although not much visited because of its isolation. Miss Bradley has on her blackboard some very excellent drawings by a member of her class.

The work of the schools as demonstrated on this, the first visiting day, is to be commended most highly. The mere fact that parents and friends will be made to feel welcome at all times, will bring the school into its own as the foremost factor in the advancement of a community.

RAPID PROGRESS IN  
ALL DEPARTMENTSEXTENSION AND VICTOR WILL BE  
CONNECTED ABOUT MARCH  
FIFTEENTH

The 1350 west drift in the Tonopah Extension, which is run on a horizontal plane, has been actually upraising on the Murray vein, since the apex of the latter follows the contour of the country, which slopes gently toward the westward, the capping being practically uniform in depth. For this reason the level is now nearly on the top of this remarkable ore lens, one of the longest in the history of silver mining, particularly in Nevada.

Next in order will be cutting a station at the 1540 point of the winze which is being sunk on the Murray vein and which finds it to be improving in value with depth, although its width is not known, only one wall being kept in sight. From this station drifts will be run both east and west.

The Victor crosscut is coming toward the extension at steady and rapid rate and it will connect with the winze about March 15. The water flow, which caused so much trouble and expense at the Victor shaft, is steadily decreasing.

Owing to delay in receiving supplies, particularly lumber, work on the three-rail tram and on the Victor ore bins is held back, but all will be complete before the addition to the Extension mill is in readiness. It is expected that all branches of the projected improvements, changes and enlargements will be in readiness by July 1 at the latest, when Tonopah's most westerly producing property will be in shape to handle an enormous tonnage of ore, the value of which will be higher than that which is now and has been put through the crushers.

FINNS FINED FOR  
RAISING ROUGH HOUSE

J. Anderson and Eric Michaelson, two Finlanders, were found guilty in Justice Dunseath's court last evening on the charge of assaulting John Brown, an American. He fined them \$25 each and told them that the next time under similar circumstances it would be a jail sentence. Nick Hill, a third defendant, was discharged with a reprimand, it not being proven that he struck any of the blows.

TONOPAH AND MILLERS  
MEET THIS EVENINGSECOND GAME OF SEASON TO BE  
PLAYED AT THE  
AIRDOME

Tonopah meets Millers this evening at the Airdome in the second contest of the season between the two teams. Millers will bring up a stronger aggregation than ever before and the boys from the suburbs have been doing some hard practicing during the last few weeks getting in shape for tonight's contest. The boys from Millers practice on an out doors court, but that this is no detriment to basketball was certainly demonstrated by the fast Bunkerville squad who practice continually on a ground court. The preliminary game between the first and second teams from the girls' high school squad also promises to be attractive as the second team contains some sharks who bid fair to rival their opponents in the first squad. The first game will start promptly at 8:00 and the boys promise that there shall be no unnecessary delay between halves. Tonopah will have the same line-up on the field as they did in the last game with Millers when they came out victorious. The two teams will line-up as follows:

| Tonopah   |       | Millers   |  |
|-----------|-------|-----------|--|
| Pinkstaff | R. F. | Cuddy     |  |
| Vincent   | L. F. | Dynan     |  |
| Rhoda     | C.    | Butler    |  |
| Goodrich  | R. G. | Smith     |  |
| Rhoda     | L. G. | O'Connell |  |

There will be no dance after the game as the boys do not intend to oppose the Eagles in any way. This date was the only one that the Millers squad could come on. The first game as before mentioned will start promptly at 8:00 and the admission price to all is twenty-five cents.

Harold Sotenburg will referee the contest.

RECORD OUTPUT LAST  
YEAR IN LINCOLN CO.

During the year just passed, the mines of Pioche contributed to the world's wealth the contents of 2,300 cars of ore which were shipped from this point over the tracks of the Salt Lake Route to the Salt Lake smelters, says the Record. Say that each car averaged forty tons; it figures out that 92,000 tons of gold, silver, lead, copper and zinc ores were sent out from here to the reduction plants.

This is undoubtedly the largest tonnage ever produced by the Pioche mines in any one single year. The possibility of a much greater tonnage of ore leaving the district during 1916 is extremely favorable. There will be no letting up in the output of the Prince, the Bristol mines will produce as they never have before; the Consolidated Nevada-Utah mill will be in operation within a few months; the Yuba mill will likely increase its daily output; the Dorris Mining and Milling company will be sending out bullion from its cyanide plant; the Greenwood Leasing company will no doubt have things in full swing within a few months and with the prospects of continuance of high prices of metals others will be encouraged to get in line and help to make the present year the most prosperous one ever known in the history of mining in Pioche and Lincoln county.

METROPOLIS COMPANY  
IS AGAIN SUED

A suit to determine the right of the Metropolis Land company to impound the waters of Bishop creek, one of the head tributaries of the Humboldt river, in Elko county, was brought in the district court today by Alphonse Bernard, a Golconda rancher, through his attorney, J. A. Langwith, says the Humboldt Star.

## PROCEEDS FOR CHARITY

The game of indoor baseball that will be played in the Airdome on the evening of March 7 will be for charity. The net proceeds will be divided between the Eagles and Moose and will be distributed among the needy, either in provisions, fuel or rent. Both teams will go into active practice at once.

CHARGES AGAINST NEGRO  
CONVICT ARE FILED

Charges were filed with the justice of the peace yesterday against James Brown, the negro convict who left the prison farm last week and attempted to rob the house of Vera Marx. He will be prosecuted on the charge of jail breaking.—News.

## WIRELESS FOR NEVADA

Dean Scrugham, of the engineering college of the University of Nevada, is endeavoring to establish a series of wireless telegraphy stations between the university and various high schools throughout the state, says the Journal.

DR. PENNINGTON

TONIGHT'S THE NIGHT  
IN LOCAL EAGLEDOMANNUAL MASQUERADE BALL TO  
BE HELD THIS EVENING IN  
MINERS' HALL

The elaborate preparations for the grand annual masquerade ball—the fifteenth—to be held by Tonopah serie, No. 271, Fraternal Order of Eagles, have been completed. It will take place this evening in Miners' Exchange hall. The various committees have worked hard and are able to assure all who attend that they will thoroughly enjoy themselves.

Never before have the prizes for the annual masquerade been so numerous nor more attractive. The costumes promise to be varied and picturesque. While the invitation is general, all masks must be lifted in the presence of a committee, so that no one that is undesirable may enter the room. No objectionable features in the dancing will be permitted.

ADDRESS AT UNIVERSITY  
BY HUGH H. BROWN

Hugh H. Brown left this morning for Carson City to attend the oral argument in the supreme court in the case of Jim Butler Tonopah Mining company vs. West End Consolidated Mining company. Before returning, he will attend the meeting of the Republican state central committee in Reno on the 26th instant. On the 25th he will make an address at the state university on the subject, "An American in Belgium," being the story of the work of Herbert Clark Hoover, the American mining engineer, as head of the commission for relief in Belgium.

## GOVERNOR ODDIE WILL SHIP ORE

Ex-Governor T. L. Oddie is in town today looking for teams to haul the first shipment of ore from the claims that he has been operating in the Pamlico district for the past few months. He has six tons of high grade copper ore which he will send to the smelter as a test shipment.—Hawthorne Bulletin.

## IN HONOR OF WASHINGTON

In commemoration of the birthday of George Washington, the banks and public offices and courts of Tonopah were closed today. There were no patriotic exercises, but flags were flying throughout the city.

## NEW TODAY

SOUTHERN PACIFIC  
COMPANY

## FIRST IN SAFETY

The Spring of 1916 is opening on what we firmly believe will be a banner year for Nevada, in Mining, in Agriculture and in Stock raising.

## The Southern Pacific Company

During the Exposition year, 1915, demonstrated its ability to handle expeditiously and satisfactorily the enormous volume of freight and passenger business it carried during that year, and is ready to repeat the performance during 1916.

SOUTHERN PACIFIC  
COMPANYALUM-POTASH BED IS  
UNDER DEVELOPMENTUNDER THE SUPERINTENDENCY  
OF JAMES PIKE CONSIDER-  
ABLE WORK TO BE DONE

Work is now under headway at the alum-potash property north of Blair, which was recently taken over under option by Victor Barndt and associates, among whom are the Railroad Valley company, James Pike, the general superintendent of the Jim Butler Tonopah company, is also officiating as superintendent of this property.

He has secured a hoist, headframe and surface equipment from Goldfield, which will be transported and installed at once. A quantity of lumber has been sent out from Tonopah and a camp established. A number of men have been put to work. The shaft is now down 50 feet. It will be sent to 100 feet before any lateral work is done, after which the shaft will be continued to greater depth.

STRINGERS BEING CUT  
IN CASH BOY MINE

Work is being actively prosecuted on both the 1350 and 1450 levels of the Cash Boy. On both these levels workings are being advanced to the west and are cutting stringers carrying fair values. Owing to a fault the ore body from which shipments were recently made, has not yet been relocated.

DEMAND FOR COPPER  
MAKES GOOD TIMES

Parties from Ely, White Pine county, state that the country surrounding that section is the liveliest in the state and a fair sized boom is on. Nearly 4,000 men are at work in the mines and smelters and making wages averaging close to \$4 a day. This has been brought about by the high price of copper, approximately 28 cents a pound, and the great demand for the metal. The payroll of the section from the mining industry alone is now placed at between \$400,000 and \$500,000 a month, and it is increasing every month. The miners are working on a sliding scale, the minimum being \$3.50 per day.—Elko Independent.

## TEMPERATURE REPORT

Highest temperature yesterday, 42; a year ago, 30.  
Lowest temperature last night, 30; a year ago, 25.

## NEW TODAY

CATTLE PERISH BY  
DRINKING CYANIDETRAIN CREW SAYS THE COWS  
DROPPED AS THOUGH THEY  
WERE SHOT

When the crew of the ore train reached Millers this afternoon they brought news of the death of a number of cattle near Mainline junction from drinking cyanide water. When the train passed there were seven or eight cows down and others dropped as the train was pulling out. They telephoned to Tonopah and Dr. Morgan-Owen went out with antidotes to endeavor to save some of the cattle. At Mainline junction is where the slimes from Tonopah pass under the railroad track, which is bridged for flood waters.

## PERSONAL

A. B. CALL of Pasadena is a guest at the Mizpah.

FRED NATHAN is here from Reno on business.

JOHN HAUSEN had business today in Goldfield.

E. E. BERTRAM is transacting business in Reno.

L. R. ROBINS of Tonopah is spending a few days in Reno.

HARRY R. GRIER was a passenger for Goldfield this morning.

W. W. HARRIS is here from Denver on a business errand.

ROSS CONDON left for Reno this morning on a brief business trip.

MILTON M. DETCH returned to Goldfield after transacting business in the district court.

MRS. A. G. PASE and Miss A. Ness of Millers are spending the day in this city.

S. S. LOCKETT returned this morning to his home at Beatty after attending to law matters here.

W. G. WILSON, traveling freight and passenger agent for the Southern Pacific company, was an arrival this morning from Reno.

OLENTA SUCCHETTI left this morning for Marietta springs, below Los Angeles, where he will undergo treatment for inflammatory rheumatism.

M. E. NORTH, state manager for the New York Life Insurance company, was a passenger on this morning's northbound train, en route for his home in Reno.

"HAPPY" LAMBERT returned yesterday after spending several weeks at the Panama California exposition and other points of interest in southern California.

HUGH H. BROWN left this morning for Carson City, where he will participate in the hearing before the supreme court of the West End-Jim Butler case, appealed from the fifth judicial district court.

## The Tonopah Banking Corporation

AMUSEMENTS  
BUTLER THEATER

## The program at the Butler this evening will consist of Paramount travel pictures of South America, always interesting and educational, and "The Fighting Hope," a Lasky-Belasco production in which Laura Hope Crews, one of the most gifted of American stars, makes here photo-dramatic debut. The drama made its author, Wm. J. Horibut, famous over night when originally produced by David Belasco and has become one of the recognized modern American classics. The woman about whom the interest of this play centers is the wife of a moderately prosperous bank official, who is condemned to jail for an embezzlement of a very peculiar nature. She believes her husband innocent and succeeds in becoming the secretary of the president of the bank (now closed), whom she believes to be guilty. The president is forced to establish her husband's guilt beyond all doubt, in order to clear his own name, and letters which finally come into his possession convince even the wife that her husband was untrue to his trust. At this time the wife falls in love with the man by whom she has been employed, thus having her fidelity to her convict husband put to an extreme test. The ultimate solution of this extraordinary situation is worked out with such cleverness that it comes as a complete dramatic surprise. Tomorrow, Mrs. Flske, in a seven-reel Kleins production of "Vanity Fair."

## MEETING NOTICE

Notice to the officers and members of Tonopah Miners' Union, No. 121, W. P. of M.: The regular meeting of Tonopah Miners' Union will be held this evening in the Miners' Union hall at 7:30 p. m. Please attend.

WILLIAM MITCHELL,  
Adv. F2211 Secretary

## A NEW PUBLICATION

The Nevada, a weekly newspaper, to be published by Frank MacBride, will make its first appearance at Reno on February 26. The paper will be independent in politics.

MASON VALLEY POTATOES  
SELL AT \$35 PER TON

About three carloads of potatoes are being daily shipped from Wilson Station with about sixty carloads more sold and waiting for shipment from the same station. The price paid for these "spuds" is \$35 per ton, says the Yerington Times. Eleven thousand sheep are being fed on Missouri Flat. The lambing season has begun and if the present favorable weather continues the sheepmen expect about 9,000 lambs by the middle of May.
